

REVOLUTIONARY 3-IN-1 VACCINE

Protect your herd and
your bottom line with
NEW CIRCUMVENT® C-M-L

1 CONVENIENT TRIVALENT VACCINE. 3 REASONS TO BUY.

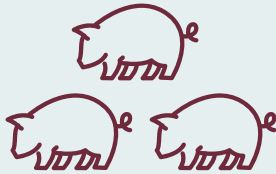

Protecting your herd against diseases is not only important to the performance and well-being of your pigs; it's essential to the success of your business.

Introducing CIRCUMVENT® C-M-L: The first and only ONE-STOP SHOT that helps provide protection against disease caused by: porcine circovirus type 2, *Mycoplasma hyopneumoniae*, and *Lawsonia intracellularis*.

Safety and proven protection aside, here are 3 great reasons to start using CIRCUMVENT® C-M-L today:

Benefit from the efficiencies of a single injection vs. separate vaccines.

Spend less time injecting pigs and more time caring for your herd.

Using only one bottle instead of multiple bottles adds ease and convenience to your operation.

Fewer injections. More convenience. CIRCUMVENT® C-M-L is a singularly easier solution for your staff, your operation, and your bottom line.

Talk to your veterinarian to determine whether CIRCUMVENT® C-M-L is suitable for your herd. Vaccination may not protect every animal that gets vaccinated.
