

Why vaccinate YOUR PET?

Dangerous germs
can be everywhere.

These dangers
exist both **OUTSIDE...**

...and
INSIDE...

...and
**POSE A
THREAT**

to your **pet's health.**

VACCINATION can
HELP PROTECT
YOUR PET FROM diseases that
are **widespread, serious** and
potentially fatal.

Some vaccines are recommended for all

DOG OR CAT.

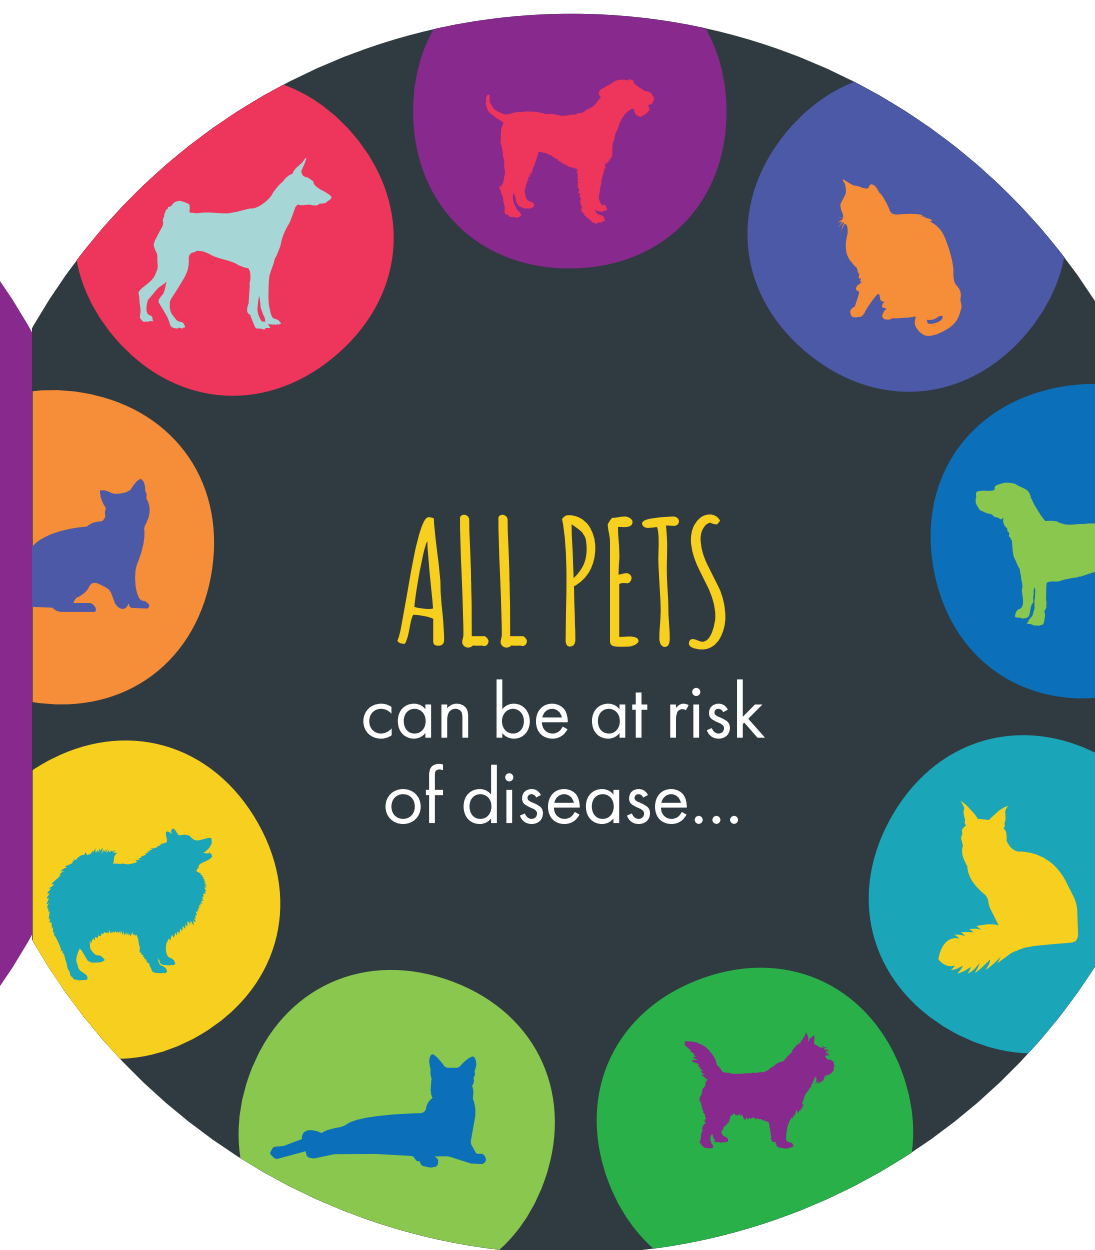

These are called
CORE VACCINES.

Your pet may also need

ADDITIONAL VACCINES

based on where you live and your pet's lifestyle.

ALL PETS
can be at risk
of disease...

... **WHEREVER**
they live.

SUBURB

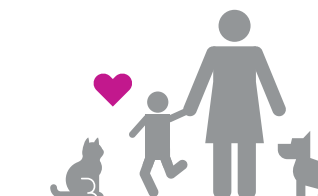

COUNTRY

CITY

**Help keep your pet
protected from disease with
VACCINATION.**

Ask your veterinarian which
vaccines are right for your pet.

Important protection for the ones you love.
